

Consent Form on PCR Test for Oversea Travelers

(Please place a check-mark)

- I read the **Instruction for PCR test for Oversea Travelers**

- I haven't had any symptoms in past 14 days and I am in good health now.

- I will follow the instructions provided by the public health center as a carrier, if I test positive.

- I will not ask for a refund after taking the test.

- Immigration requirements may change suddenly based on the country's policy. On arrival at your destination, immigration and movement restrictions may be applied by the country. A negative certificate issued by this PCR test is not necessarily exempt you from such restrictions.

If you are having a **saliva PCR test**,

- I understand that drinking, eating, gargling and toothbrushing are not allowed from 30 minutes before testing. If I do any of these, I will follow the policy of waiting until the prescribed time before being tested.

If you are having a **nasopharyngeal swab test**,

- I understand the possible circumstances after having a swab test.

- I understand that the Traveler's PCR Center at Toho University Haneda Airport Terminal 3 Clinic is not responsible for any impact on my travel due to my own choice of test method or sampling method (saliva or nasopharyngeal swab).

I meet the all requirements above, thus I give my consent to take a Novel Coronavirus (SARS-CoV-2) PCR test.
